

**Industrial Automation | Vacuum Pump |  
Sensors | Gluing & Inspection Systems**

# **Unlock Packaging Excellence with Consys Technology**

Discover cutting-edge solutions to revolutionize your production line, optimize your operations and boost profitability.

# About Us

Empowering Precision. Delivering Performance.

Welcome to Consys Technology, your trusted partner in industrial automation and packaging solutions. Established in 2022 by Pramod Bhardwaj an engineer with a vast experience of 15 years in the field of Printing and Packaging machineries. We are a dynamic and fast-growing company based in India, focused on delivering advanced technologies and best-in-class products to the printing, packaging, and manufacturing industries.

**Our Mission:** To enable industries with cutting-edge automation and support systems that drive efficiency, reliability, and growth.

**Our Vision:** To be a leading industrial solutions provider across India by delivering consistent value, innovation, and trusted service.

## What We Offer:

- Folder gluer machines, Blanking machines,
- Vacuum Pumps, compressors and combined pumps for printing, packaging paper industry, and wide range of industrial applications, for example vacuum packaging, food processing, pneumatic conveying, plastics processing, CNC Routing Woodworking and medical industry.
- Hot Melt Gluing Systems for secure, high-speed bonding •
- Spare Parts & Maintenance Support to ensure continuous productivity.
- Sensor & Encoder Solutions for motion and position feedback •
- At Consys, we specialize in offering complete, reliable solutions tailored to customer needs. We are authorized sales partner solutions for premium brands in automation and packaging. We aim to enhance your operational efficiency with high-quality, cost-effective, and technically superior solutions.

## Precision Folder Gluers

We deal in Print Pack Technologies folder gluer machines that deliver high-speed, precise folding and gluing. We are engaged in offering a wide assortment of Folder Gluer Machine. These Folder Gluer Machines are also known as Crash Lock Folder Gluer Machine and are recommended all across the country for their precise use, boosting your production capacity and cutting labor costs.

(GM-550/650/850/1100, PK-650/850/1100)

Auto Folder Gluer for Corrugation is also available in size 1450/1600

## Offline Blanking Solutions

Print Pack Technologies' Stripper used to strip the die-cut waste from stack of card board, litho-laminated paper board. Machine is equipped with PLC and touch screen interface in operation which makes it safe and user friendly

- Machine is equipped with PLC and touch screen interface in operation which makes it safe and user friendly
- Double guided rail and ball screw which ensures high accuracy
- Latest hydraulic system with oil temperature cooling system
- 2 Blanking head for A and B type jobs
- Lifting table (Optional)
- Conveyor belt / robotic arm (Optional)

# Advanced Gluing Systems and Quality Assurance

Experience reliable bonds and significant glue savings with HHS gluing systems. Our solutions ensure precise adhesive application with accuracy of  $\pm 0.1\text{mm}$ , reducing glue consumption by up to 40% for consistent quality and minimal downtime.

# Reliable Vacuum Pumps

Consys Technology offers robust vacuum solutions from Eurovac, Briwatec and GEV. Our pumps provide flow rates up to 1920 m<sup>3</sup>/hour and deliver up to 30% energy savings, optimizing material handling and converting applications.

# Innovative Vacuum Tooling

Supervanes vacuum tooling solutions provide advanced gripping and handling for your materials. Increase handling speeds by 50% and reduce material damage by 20%, ensuring smoother production flow and enhanced efficiency.

# Plasma

We deal in Eltech Engineers Pvt Ltd is an ISO 9001:2015 certified Indian Company worldwide active company for Research, Development, Production and Sale of High graded Products. It is one of the leading manufacturers and exporter of a wide range Corona Treatment System, Plasma treatment Systems, Static Eliminators, Static Chargers, Induction Cap Sealers, Ozone Generators & Static Meters.

# Efficient Air Compressors

Ensure the smooth operation of your pneumatic systems with reliable air compressors from Anest Iwata. Our units range from 5 to 100 HP, offering high-quality compressed air with noise levels as low as 60 dB for consistent performance.

# Why Choose Consys Technology?

## **Expert Consultation**

Benefit from our deep industry knowledge and tailored solutions designed for your specific needs.

## **Leading Partnerships**

Access top-tier technology from Print Pack Technologies, Baumer India, HHS, Eurovac, Briwatec and more.

## **Unmatched Support**

Receive comprehensive assistance to maximize your ROI and achieve operational excellence.
